Introduction

To Esteemed / Potential Client,

Dear Sir / Madam,

RE: INTRODUCTION LETTER – PROVISION OF SECURITY SERVICES

In reference to the need for prudent security services in institutions, I on behalf of Selikom Safenet Enterprises Limited wishes to forward to you this introduction letter concerning provision of security services for potential clients.

The company, currently with a workforce of more than 220, began its operations about 8 years ago and has had great presence in entire western Kenya region spreading across counties such as Siaya, Kisumu, Vihiga, Kakamega, Busia, Bungoma, Homa bay and Migori.

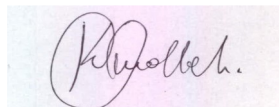

If finally granted the opportunity to provide security services, Selikom Safenet Security Company affirms that it shall carry out its mandate with commitment, responsiveness, respect, diligence and will be proactive in matters that concerns the institution's security.

Specifically, the security guards are regularly supervised and reshuffles done where necessary and in consultation with the client or its designee as a point person. The guards will additionally be provided with relevant kitting including and not limited to; trouser, shirt, sweater, whistle, button, rain coat and any other security aid that will be deemed necessary. The night guards will be provided with torches/spot lights. The company shall provide and keep records of daily occurrences commonly known as OB.

Herein attached kindly find the proposed service fee/rate and the company profile in brief for your perusal and consideration.

Thanking you in advance and looking forward to successful provision of security services with your full support.

Yours Sincerely,

Charles O. Komolleh

Company Managing Director,

SELIKOM SAFENET ENTERPRISES LIMITED

Company Profile

Six years ago, we began as a small family business that only offered guarding services. Today, we are reputed for delivering the best standard risk management consultancy, property surveillance and guarding services in Western Kenya region. The company is built on strong values and strategies that continuously drive change and growth in leadership and management qualities to remain unrivalled in the security industry.

SELIKOM SAFENET was created to fulfill the security needs of homeowners and commercial clients. We understand different approaches in property guarding services and we treat each task uniquely, with individual client's requirements in mind.

SELIKOM SAFENET is a registered entity with the registrar of companies under the Companies Act, Laws of Kenya. The company director and founder has myriad experiences with different disciplines and in the commercial sector, with great ability in understanding the needs of the corporate clients and deliver executive security and company-wide range of services with extreme professionalism and ethical standards that are demanded.

SELIKOM SAFENET is also established with managers who have attained considerable experience in the field after working in client-facing roles for leading local providers of security services and has employed quality skilled guards, all committed to the protection of property and lives.

Our Vision

Leading agency associated with a fulfilled society free of preventable vices

Our Mission

SELIKOM SAFENET seeks to partner and network with all parties and with firm intention of creating the desired change through diligent and relentless style of operation while putting her customers' satisfaction ahead.

Our Values

Our core values are what drive us to do everything necessary to expand our market potential. We do this by creating ground for innovation, making our products and services sustainable, building a team of diverse and creative background, and contributing to the economy by providing employment opportunity to the local community where we work.

Management Team

Charles Komolleh - Managing Director

Charles Career in Professional Security Services began after he completed trainings in Disaster Risk Reduction & Management (DRRM) and Security Awareness Programmes. Charles has a career in Public Health for the past 30 years and holds BSc. Health Promotion & Development, and a BA in Business Administration. He has undertaken active duty in DRRM and Security Awareness trainings across the country for last 11 years. This decade of service has involved interactions with Governments institutions, non-profit organizations, learning institutions, manufacturing & construction industries, enterprises among others.

Paul Okwaro - Operations Director

Paul is now a reputable member of Selikom Safenet Risk Management Consultants. Paul has made a successful career in private security services and has established himself in many security sectors including guarding services, private investigations and security trainings. Paul began his career with Pride Kings Security Services as the General Manager and in 2020, he resigned in order to pursue his career with Selikom Safenet. He has training in Criminology and Security Management., and brings a wealth of experience to the company.

Moses Epus Omuse - Operations Manager

Moses left the Kenya Prison Service to pursue a career in private security services. He joined Uchumi Supermarket, Nairobi as Chief Security Supervisor for four years, Security Supervisor at St. Andrews Turi International School in Molo for eight years, then Operations Manager with Modern Security for seven years before joining Selikom Safenet. Moses has trainings in Prison Management, Security Management and Fire management among others

Products & Services

Our services are divided across four main categories

1. Property Guarding and Surveillance Ser-

- Security guards
- Mobile security patrols
- Dog handling services
- Video surveillance
- Perimeter security
- Detection and response system

2. Private investigation

3. Risk Management Consultancy

4. Training

PROPERTY GUARDING AND SURVEILLANCE SERVICES

Keeping people and property safe and secure

SECURITY GUARDS

We provide high-quality security presence to protect clients from trespassers while restricting and monitoring access to the premises. Our security guards are provided with modern access control units, including hand-held metal detectors and undercar surveillance mirrors, for luggage scanning, explosive detection and all unauthorized materials screening.

MOBILE SECURITY PATROLS

We have strategically positioned response team located just outside the clients' premises or the location's physical borders to reinforce emergency and intelligence actions 24 Hours. Our patrol team is composed of specialists in physical and electronic surveillance, First Aid, and intelligence gathering. Our team works cordially with the police and other Law enforcing agencies.

Products & Services

DOG HANDLING

We provide well trained German Shepherd guard dogs with experienced handlers to routinely patrol and sniffing the clients' site.

VIDEO SURVEILLANCE

We supply and install CCTV for remote surveillance to protect clients' premises. Our services are tailor made to suit the needs of our clients.

PERIMETER SECURITY

We supply and install reliable electric fences for perimeter protection. We use the latest technologies that are designed to alert the guards, owner and the police whenever the perimeter fence is breached.

DETECTION AND RESPONSE SYSTEMS

We supply and install variety of alarm systems. Our alarm technology include highly visible alarm systems for deterring criminal activities, and silent and concealed alarm systems that only alert the security guards, owner and the police.

We install

- Intruder alarm system
- Fire detection and alarm system
- Fire equipment
- Walk-through metal detectors

Products & Services

PRIVATE INVESTIGATION

We provide discreet investigation and evidence gathering services. Our investigation services focuses on internal theft, corporate fraud, anti corruption, and undercover services.

RISK MANAGEMENT CONSULTANCY

We offer expert risk analysis information to clients for informed decision making, planning and investment in security services and overall security strategy. Our services ranges from:

- Conducting Risk Analysis and Assessments
- Development of disaster management / preparedness plans.
- Capacity building on Disaster Management and Disaster Risk Reduction

SECURITY GUARDS MANAGEMENT

We always have guards on site and a security guard supervisor who goes around to keep track of our guards and makes sure they are held accountable. Our security guard supervisors are equipped and provides with motorbikes to visit the guards on sites and ensure efficient operations

Our management team also regularly go out for post inspections to engage guards on a top-to-bottom communication and support guards in fixing problems that require more than their skills or experience to handle.

Selikom Safenet is now adopting guards management software that's designed to supervise guards electronically, using check-ins, time punches, reports, and GPS tracking to prove accountability.

CLIENTS TRAINING

Our clients are trained on security-related tips on the importance of being security conscious. Imbibe on the staff the consciousness that would cause them to be alert at all times. Our trainings entail:

- Security observation and evaluation skills
- Disaster management and preparedness
- Fire management
- Security alarm system

TRAINING

We offer comprehensive security training to security guards and clients

SECURITY GUARDS TRAINING

Keeping our guards safe is our top priority. We make sure they are well trained and placed in the safest environment possible. We provide intensive professional security training to recruits and regular guards. Our trainings entail:

- General foot drill and discipline
- Basic principles of Law
- Basic investigation and crime scene protection skills
- First Aid skill
- Fire fighting and control skills
- Patrol, surveillance and emergency procedure
- Security system and alarm response skills
- Grooming and personal hygiene

Client Portfolio

We are motivated and inspired daily by our customers, and our success and the success of our clients are closely tied to one another. The more value we create for our clients, the more we impact their day-to-day operations, the stronger our company becomes.
